

PAERI'24

Wednesday, 27 November 2024 - Friday, 29 November 2024

CUBE

Book of Abstracts

Contents

Keynote Speaker	1
Identifying Indigenous Knowledge in communities to communicate across cultural borders for science infrastructure construction success	1
Enhancing Internal Communication in a Multinational Research Environment	1
I hear the sparkle in their eyes: podcasting for effective outreach	1
Indigenous Astronomy, communicating back to communities what belongs to them	2
Carnarvon Astro Guides communicating Astronomy	2
Harnessing the power of LinkedIn to engage with our scientific community	2
Talk to the Body: Science backed communication strategies that use sensory input to im- prove learning outcomes	3
When our telescope was targeted by conspiracy theorists...	3
Developing a corporate narrative to bridge internal and external communications	3
Two meanings of YES and a clear NO - how to run multinational working groups	4
Communicating AI to combat misinformation	4
LabView: Analyzing Media Frames of News Reports on the DOST-PCIEERD Institution Development Program	5
Inspiring the younger generation to aspire to science	5
How to survive from a website upgrade	5
Inclusive guided tours at the ALBA Synchrotron	6
CERIC: a case study of science communication in a distributed research infrastructure	6
The public engagement and communication of the UK SKA Regional Centre	6
Sharing a baseline –a pilot project linking school classes and radio astronomy facilities	7
Accelerate Your Teaching: Using the stories from RIs to inspire teachers, through MOOCs - large-scale online professional development courses	7

Engagement with a dream: Designing a public engagement strategy for a facility with no science (yet!)	8
Communicating across borders in times of crisis and uncertainty –Lessons learnt from a cyber incident at ESO	8
“Discovering the invisible with X-ray light”–how to explain science in a small children’s book in seven languages	8
The power of the ‘one EMBL’ unified brand	9
Hack your creativity!	9
AI generated visual communication: the good, the bad and the ugly	9
A web of communications - the ELIXIR Hub and Nodes	10
Behind the Light: 20 years of communicating across borders and cultures	10
PhD students campaign	10
Euro-BioImaging’s Virtual Pub & EVOLVE: How to enthuse scientists to benefit from Open Access to European Imaging Infrastructures	11
Toolkit for orchestrating Cross-Border Communication: The European Scientific Expedition ‘TREC’	11
Shining a light on outreach at Diamond –how to engage scientists with outreach and bring people together	12
From Experimental Hall to Exhibition Hall: Public engagement at a large-scale facility	12
An escape room pilot test about multi-wavelength astronomy, EDI and Open Science	12
Community and Communication: Reaching young people through teachers at Science in School	13
Not just for boys: Fostering girls’ interest in technical activities in pre-vocational education	13
PAERI ’24 –Communicating Across Borders: 3 Identities in 3 Minutes: Using AI tools to adapt headshots to better connect to your audience	13
PAERI ’24 –Communicating Across Borders: Science is sexy! How to leverage your brand merit to create an engaged online audience	14
Everyday EDI: embedding equality, diversity and inclusion in SKAO communications	14
Europlanet –A Case Study in Sustainable Communications for Distributed Research Infrastructures	14
Communicating a shared goal by harnessing different science specialisms	15
Communications strategy 101 for science communicators	15
WORKSHOP - Clarity in comms: tips for effective writing	16

Welcome Address	16
Communicating Science through Podcasts in Today’s Increasingly Competitive Market	16
Hack the borders! - Collaboration across invisible borders	17
Breaking down the 3m high border fence between our Science Campus and the local community	17
Welcome Address	17
Joining the PAERI Working Group	18
Keynote Speaker	18
Users, owners, funders, friends: the challenges of overlapping audiences	18
CERN Science Gateway	18
Speaker from Lightsources.org + Helmholtz (title tbc)	19
Speaker from EPFL (title tbc)	19
10 Essential Tips for Talking About Your Science	19
How and why scientists do outreach	19
Introducing Science Gateway	19
Evaluating Science Gateway, the social science perspective	20
Discovering the labs and science shows	20
Communicating Science Gateway	20
Introducing Science Gateway	20
Evaluating Science Gateway, the social science perspective	20
Discovering the labs and science shows	21
Communicating Science Gateway	21

Wednesday Morning / 2

Keynote Speaker

Type of Participation:

Type of submission:

Thursday Afternoon / 3

Identifying Indigenous Knowledge in communities to communicate across cultural borders for science infrastructure construction success

Author: Anton Binneman¹

¹ NRF/SARAO University of Johannesburg

Corresponding Author: drbinneman@gmail.com

Type of Participation:

In person participation

Type of submission:

1hr workshop

Thursday Afternoon / 4

Enhancing Internal Communication in a Multinational Research Environment

Authors: Bernd Ebeling¹; Marieke Sander¹

¹ European XFEL

Corresponding Authors: bernd.ebeling@xfel.eu, marieke.sander@xfel.eu

Type of Participation:

In person participation

Type of submission:

15 min talk

Wednesday Afternoon / 5

I hear the sparkle in their eyes: podcasting for effective outreach

Author: Eleanor Shember¹

Inspiring the younger generation to aspire to science

Author: Emma Sanders¹

¹ *CERN*

Corresponding Author: emma.sanders@cern.ch

CERN's Science Gateway aspires to engage people of all ages with the science, the technologies and the people working at CERN, to create vocations by inspiring the next generation of scientists and to empower all visitors to make sense of the science that shapes their lives. Creating vocations means reaching younger children, producing fun and accessible content and introducing representative role models. Diversity and accessibility are core to the project. We share the different challenges and the solutions chosen and what our audience research tells us about the results.

CERN Science Gateway

A chance to meet some of the team behind CERN's new science centre, opened last October. There'll be presentations on exhibitions, hands-on labs and science-shows, plus results from the first round of audience research post-opening. This session will share on lessons learnt and practical advice to others working on similar initiatives. It will pick up on conference themes such as integrating inclusive practices and design, learning from social sciences and sharing content across borders. There will be plenty of chances to ask questions.

The perfect opportunity to prepare your visit to CERN on Friday!
