

Cosmology in the Alps 2024

Thursday, 21 March 2024

Thursday afternoon - part 2: Cosmic Dawn and The Epoch of Reionization (4) (15:50 - 17:50)

time	[id] title	presenter
15:50	[80] 21cmCosmoSim: Simulations and inference for 21cm cosmology	HENEKA, Caroline
16:10	[64] Exploring Beyond Standard Cosmological Models during the Epoch of Reionization	GIRI, Sambit
16:30	[79] Probing Early Universe using the uGMRT, SKA and SEAMS	DATTA, Abhirup
16:50	[67] Charting Cosmic Evolution: UV Background and the Persistence of HI in Galaxies for Post-EoR Simulations	Dr BIANCO, Michele
17:10	[37] Wavelet Based Statistics for Enhanced 21cm EoR Parameter Constraints	HOTHU, Ian
17:30	[20] Prospects of a statistical detection of the 21-cm forest and its potential to constrain the cosmic heating and reionization history	SOLTINSKY, Tomas
