

SPARCS XII: Pushing Toward the Final Frontier

Tuesday, 7 May 2024

AGN/ High-z (15:30 - 17:00)

-Conveners: Pratik Dabhade

time	[id] title	presenter
15:30	[32] New radio continuum surveys and the life-cycle of radio AGN	Prof. MORGANTI, Raffaella
15:55	[99] Discovery of a dominant new population of jet-mode AGN at high redshift	Dr KONDAPALLY, Rohit
16:10	[107] A Complete Characterisation of Ultra Steep Spectrum Sources in the COSMOS Field	BARBOSA, Davi
16:25	[102] Searching for Young Radio AGN via Broadband Radio Spectral Analysis	PATIL, Pallavi
16:40	[145] Fun with Faraday Cubes	RUDNICK, Lawrence

Thursday, 9 May 2024

AGN/ High-z (11:00 - 12:30)

-Conveners: Konstantinos Kolokythas

time	[id] title	presenter
11:00	[16] The detection of radio emission from exoplanetary systems	TASSE, Cyril
11:15	[41] Odd Radio Circles Four Years On	NORRIS, Ray
11:30	[48] Active galaxies in the LoTSS DR2 survey	HARDCASTLE, Martin
11:45	[35] The nature of compact radio-loud AGN: a systematic look at the LOFAR AGN population	CHILUFYA, Jones
12:00	[124] Decoding DDRG growth and environment with the largest sample from LoTSS	Dr DABHADE, Pratik
12:15	[135] A population-based approach to understanding radio AGN feedback with LOFAR-VLBI	PIERCE, Jonny
