

Enabling Dark & Quiet Skies with Trusted Data

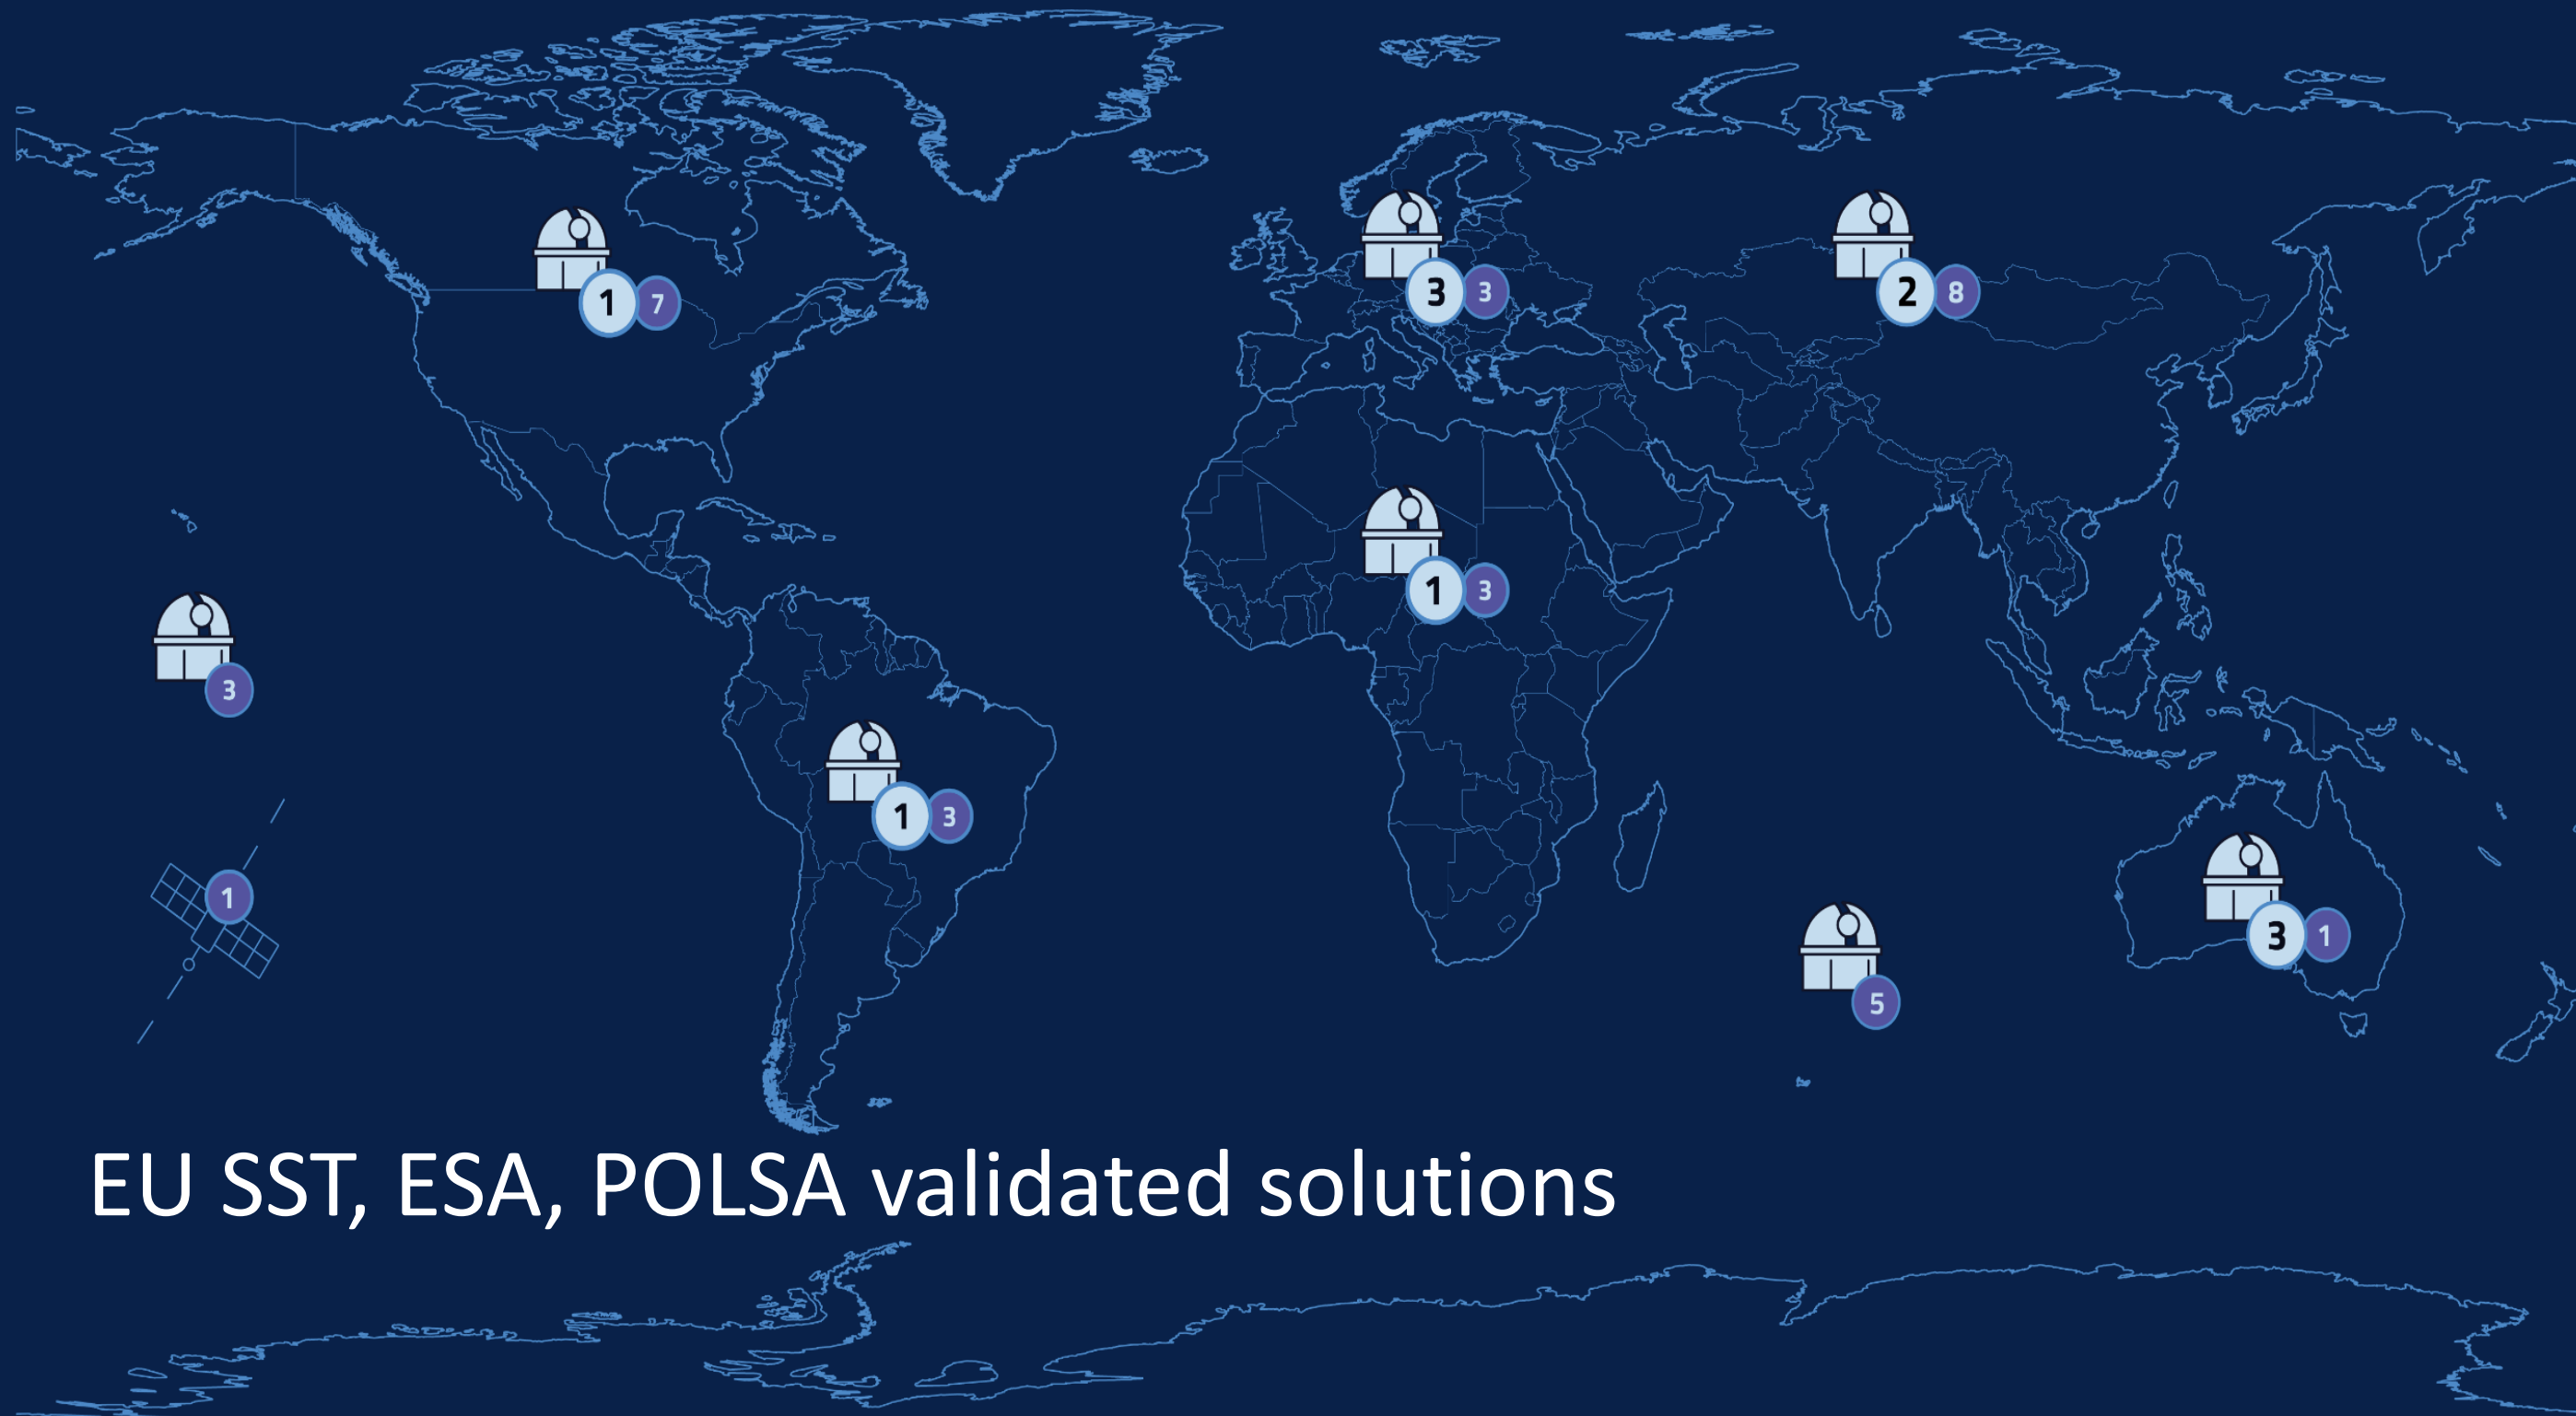

Dr. Agnieszka Sybilska
Sybilla Technologies

UN/SKAO Workshop, Vienna
December 2025

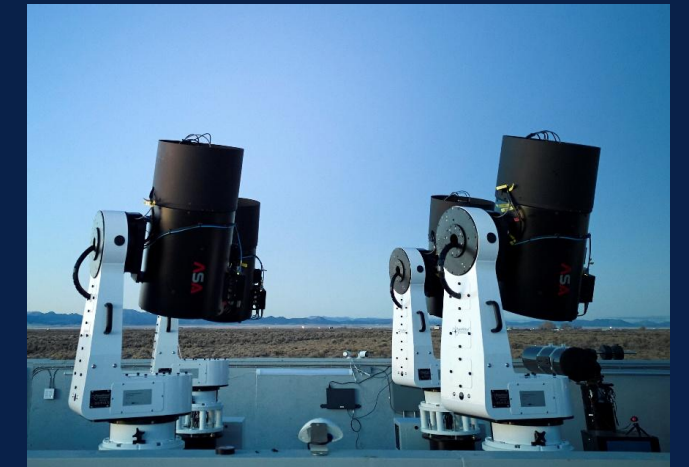

Bridging the Measurement Gap:

Global Sensor Network for Evidence-Based Mitigation

EU SST, ESA, POLSA validated solutions

Delivering Actionable Insights for Astronomy and Satellite Industry

For Astronomy:

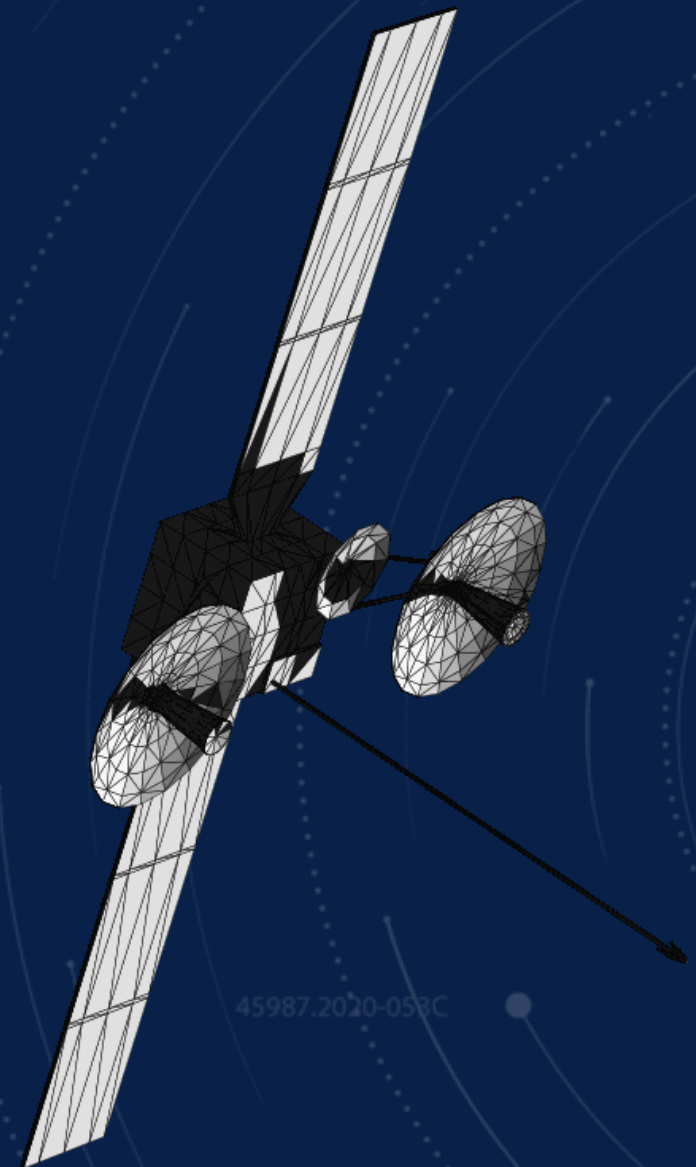

- Satellite crossing forecasts
- Historical & validation data

For Operators:

- Light curve modeling
- Compliance & design support

Let's Collaborate:

- Evidence for policy
- Shared calibration
- Expanding the sensor network

Animation of a NASA TDRS satellite, generated using Sybilla's photometric simulation service, GLINT.

Let's talk!
