

MeerKAT Science Commissioning

An overview of the last year of commissioning activities for MeerKAT. The focus will be the role of the science teams - commissioning itself, the Science Data Processing (SDP) group, and the Radio Astronomy Research Group (RARG).

I will discuss our approach to problem solving, the toolsets in use, unforeseen challenges, and describe some of the trickiest issues we encountered.

Suggested duration

20 - 30 minutes

Primary author: RATCLIFFE, Simon (SKA South Africa)

Presenter: RATCLIFFE, Simon (SKA South Africa)

Session Classification: Commissioning II

Track Classification: Commissioning
